

## Hudson and Me Bedtime

Its Hudson again! Its time for bed, and Hudson loves going to sleep. He has lots of special things that help him have a lovely bedtime! Lets see what they are. Hudson and Me Bedtime is the fifth book in the series based on the adventures of Hudson the sausage dog and the little girl. They love each other very much and are the best of friends. The story focuses on bedtime routines and things that all children can relate to which help them go to sleep. Each item that the little girl has in her bed, Hudson has as well! This is a wonderful bedtime story to read with your child. They can see which items they have themselves, and laugh at Hudson being silly. It encourages children to see going to bed in a positive way, and hopefully send them off to sleep at the end! The books are designed to suit children of a range of ages. They are perfect Read-Along stories for parents and teachers of very young children (1-3 years). They are also ideal Early-Reader books for slightly older children who are learning to read independently (4-6 years). The Hudson and Me series is fun, colourful and interactive, and children will love Bedtime, snuggling down to go to sleep reading all about little Hudson
