

## You the Writer: Writing, Reading, Thinking

In *You the Writer*, this well-known author team has enriched the best qualities of the traditional rhetoric/reader with the most current theory and practice. As the subtitle suggests, students benefit from the full integration of critical thinking into the writing and reading processes. Students move from writing about their own experience and observations to reading and writing about explanation, comparison, and contrast, concluding with such topics as argument, definition, and researched writing.
