

Energy Intelligence at Work: A New Leadership Theory

Why are some businesses bursting with energy? They have high performing, motivated staff moving from success to success. Why are other business cruising in neutral, with drained and dispirited people going through the motions as if they are sleepwalking? We all meet people who make us feel full of life and optimism. We are energised and inspired in their company to perform well and succeed in our endeavours. Yet, there are others who make us feel like the lights have gone out! We are quickly sucked into their negativity and we feel exhausted and de-motivated. We cant wait to leave their company or avoid it altogether! The force that moves our thinking (IQ), emotions (EQ-emotional intelligence) creativity (CQ-creative intelligence) and beliefs SQ Spiritual Intelligence is Energy Intelligence (ENQ). Energy Intelligence at Work is created for business leaders and managers who want to understand how to energise and power up their staff to be the best they can be in a world of rapid uncertainty and change. Energy Intelligence at Work offers practical ways to boost the intellectual and emotional energy of staff. People who join the programme and learn how apply its techniques and will gain these results in themselves and their staff:

- ? Higher performance
- ? More creative thinking and innovation
- ? Improved customer satisfaction
- ? Increased employee motivation and loyalty
- ? Clarity of future strategic direction
- ? Better use of resources (value for money)
- ? Enhanced business reputation
- ? Effective leadership and management
