

Management Science and Engineering textbook classic: modern systems analysis and design (English. 6th Edition)(Chinese Edition)

Paperback. Pub Date: 2012 07 Pages: 472
Language: English in Publisher: China
Renmin University Press. Management
Science and Engineering textbook classic:
modern systems analysis and design
(English. 6th Edition) in compliance with
the systems development life cycle (SDLC) logical order. detailed and clear
description of the systems analysis and
design concepts. principles. skills and
methods. The book is divided into five
parts. the system needs a total of 10
chapters and two appendices. has
introduced a system development
environment. information systems project
management. systems planning and
selection. system requirements determined
structured (process modeling and
conceptual data modeling) select the best
design strategy. and human-computer
interface design. database design. system
implementation and running.
object-oriented analysis design. rapid
application develop...
