

Heinemann Integrated Skills: Upper Intermediate Students Book

The aim of this four-level ELT series is to bring together reading, writing, listening and speaking, so that the skills support each other. The books can be used alongside any coursebook to provide extra language practice, or on their own as coursebooks, with grammar support where necessary, and with the various activities used to provide specific help in problem areas. Each level in the series consists of a skills book, a workbook and a cassette, and is divided into ten units, each containing three lessons linked by topic. Balanced coverage of all four skills is incorporated within each unit.
