Make Money Using FB & G+. I wish I could take credit for this system myself. But the truth is, I discovered this system when a coaching student of mine, Jessica Sarah, showed it to me. Jessica was facing a grave situation she had just received a foreclosure notice on her house, and as a broke, single mother of 2 boys she could not work. In desperation she turned to Facebook/Google marketing to dig herself out of her hole. With no money to spend on Ads, she studied every free method of Facebook/Google marketing she could find.

Only to be left disappointed with little results. It was at this point, Jessica started to experiment and through trial and error came up with the system you are about to learn. Jessica joined my coaching program after building her Facebook/Google affiliate business to over \$3,000 a month (that's over \$36,000 per year!) to take things to the next level. But when I saw what she had accomplished, I immediately put her strategies to work in my own business, and worked with her to systematize her methods so others can put them to work. What you are reading now is a complete guide to everything Jessica did to build a 5-figure Facebook business without spending a dime on ads. And with that, let's jump right in! This course is designed to take anyone through the steps of creating/earn a 5-figure per year using Facebook and Google+. The strategies in this guide cost nothing to implement, and are able to achieve results quickly. You do not need to own a Kindle eBook reader device to read this book. The free Kindle app is available for every major smartphone, tablet and computer.
