

Leadership Lessons from a Corporate Adventurer

Navigating an array of cultural, language, religious, social and professional diversities, the past 20 years have not only provided Andy with numerous life enriching experiences but his work related travels have also allowed Andy a front row seat to see how leaders from all corners of the globe lead, sometimes effectively and sometimes not. This book shares leadership lessons from Andy's corporate adventures and is for people who aspire to be a leader or who are leaders and are looking for some fresh, common sense ideas on how to improve their current leadership skills.
