

Millers: Glass : Buyers Guide (Millers Buyers Guide)

Collectors are increasingly drawn to the translucent beauty, wide range of styles and techniques, and varied shapes and colors of glass objects and the fact that many are available at affordable prices is an additional incentive. Millers Glass Buyers Guide is organized by type for ease of reference and includes everything from bottles to decanters, drinking glasses to perfume bottles, paperweights and pictures to lights. The entire spectrum of glass production from around the world has been covered, from 17th-century antiques to 20th-century designers and factories such as Orrefors and Whitefriars. Special features examine the market complete with historical information, explanations of techniques, and manufacturers and the newest trends, with advice on what's hot now and what's likely to be in the future.
