

Reeds Eastern Almanac 2012. Edited by Andy Du Port, Rob Buttress

The Reeds Eastern Almanac covers the UK east coast from Ramsgate to Cape Wrath including the Shetland and Orkney Islands, and from Newport to Delfzijl and Helgoland, and is the complete guide for North Sea mariners. It offers ready access to essential information by virtue of its clear layout and user friendly format. Completely updated for 2012, topics include pilotage, tides, safety, navigation, radio, lights, waypoints, weather forecast information around UK and European waters, communications, Mayday and distress procedures. The spiral binding allows the Almanac to be opened flat on the chart table and the large type and clear layout makes information easy to read even in adverse conditions. Includes a free Reeds Marina Guide. Also available: free supplements of up-to-date navigation changes from January to July. There are some things I would not go to sea without - Reeds is one of them. Sir Chay Blyth
