

Leftys Day Out

Pets ask little except to be loved and cared for. Leftys story is one of a lost dog who ultimately finds his way home. He is one of the very lucky ones. Leftys story is a happy one with a happy ending. But with animal abandonment at an all time high many pets are simply left to fend for themselves never finding a safe place to call home again. These animals ask little except to be loved and cared for. If you would like to help, please contact your local animal shelter and give generously of your time and resources. If you have a place in your home and heart for one of these creatures of God, please consider adoption. The rewards are priceless. The true character of a person is reflected in the way they treat those who cannot offer them fortune and fame, but rather unconditional love.
