

The language teachers handbook. Volume 1.: Increasing implication and motivation in one-to-one teaching (The language teachers handbooks)

The one-to-one language trainers gem. In an in-depth yet easy access guide, this handbook takes the wooliness out of language learning objectives to bring the trainee to success. It solves the biggest problems that any language trainer has, including: how to turn around the trainees that are just not making progress, how to remotivate, how to get trainees to become responsible for their own progress and work outside class, how the trainer can set themselves up for their own frustration-free success in training. Not only is the reader stimulated by a highly-effective and cutting-edge methodology, but they get to see their trainees succeed time and again for real.
