

Outliers in Education: Chapter 4, Teaching Writing with Clark Sturges (Outlier Series Book 13)

In chapter four of *Outliers in Education*, learn practical tips from Clark Sturges, a former reporter and technical editor turned college English Professor, about teaching students a love of writing. He advises on technical training as well as teaching students to express themselves. He also explains his evolution in career choices and how he eventually ended up in book publishing. This chapter and the full book, *Outliers in Education*, are perfect for the current or student teacher hungry for advice and career tips from other successful educators and administrators.

About *Outliers in Education*: You have a teachers heart, a passion for learning, and youve felt the calling to educate future generations of graduates. After years of observing your teachers through school, you might have a good idea of what kind of a teacher youd like to be, but there is so much more to learn. *Outliers in Education* serves as a guide, designed to subdue fears, answer your burning career questions, and act as a six segment mentorship session with seasoned educators of various backgrounds ranging from elementary to Ivy League. As a life-long student, physician, attorney, multidisciplinary entrepreneur of 30+ years, speaker, and masters level business and law instructor (for fun), author Dr. John Shufeldt sought out the insights of individuals who passed the rigorous qualifications he identified in his first book, *Ingredients of Outliers*. These *Outliers in Education* exemplify the spirit, tenacity, and humility possessed by the best educators. He interviewed the six incredible academic professionals who candidly shared their obstacles and ingredients for success in the enclosed chapters. From enhancing your skill set, to sharpening the leadership traits necessary for school administration, you will complete this book having learned the most potent advice for soaring success and vital insights to becoming the best educator

possible.
