

Women in Jamaica: A Bibliography of Published and Unpublished Sources

The first detailed bibliography of books, unpublished reports, theses and articles written on women in Jamaica up to 1994. There is no limitation in scope except that newspaper articles are excluded, as is material published after 1994. Most of the works identified were written after 1970 as the bulk of the research on women in Jamaica really had its genesis with the declaration of International Womens Year in 1975. Prior to that, research seems to have been concentrated on the twin subjects of family and fertility . . . Certain areas are yet to be tapped and recorded . . . [but] the bibliography, by identifying what already exists, points to areas where material is lacking. Introduction Women in Jamaica is intended for the practitioner, the researcher, and the tertiary level student and lecturer. It cites over 600 works under topical headings such as Arts and Literature, Biography, Education, Economic Conditions and Employment, Family and Fertility, Health, Legal Issues, Politics, and Social Conditions. This volume includes short listings of bibliographies, periodicals and audiovisual material.
